<b>Action Information</b>		
<b>Description:</b> OSC Tabayoyong contacted the RP and spoke with Rob Duffy (212-580-8383). He informed her that they identified a leak in feeder line which that runs from Westchester to Manhattan from their leak detection system and tank volume monitoring system. This line runs under the East River and as a precaution they made a notification to the NRC and NYSDEC (Report #1808783). They have deployed crews to investigate the leak and hired the marine contractor, Ken's Marine, to support them.
